Because liquid water is required for life, as we know it, Opportunity's discoveries implied that conditions at Meridiani Planum may have been habitable for some period of time in Martian history. Mars Global Surveyor launched on November 7, and entered orbit on September 12, They called it "Journey to Mars".

The transmit and receive frequency ranges indicate these set of frequencies at UHF antenna, for communications to landers. Through ingenuity and hard work, you turned a day mission into 15 years. You may also opt out of the receipt of any marketing materials from Bonnier as I thanked them for 15 years of work with Spirit and Opportunity, and said he was now signing off. Opportunity then landed perfectly and hit a scientific jackpot immediately, ending up in a small crater with exposed bedrock.
