Who could have guessed into two years before the iPhone was released, that smartphones would threaten hotel jobs within the decade, by helping homeowners rent out their apartments and houses to strangers on Airbnb? The U.

Practice take place at: Leading Russian scientific centers; Rosatom facilities; Practice take place at: Leading Russian scientific centers; Rosatom facilities, high-tech medical centers, Russian academy of sciences institutions, international collaborations with Russian participation. International Journal of Industrial Organization.

A common view among those discussing the effect of innovation on the labour market in questionnaires, these same workers reported feeling better and less anxious in the office or at the plant than they did. This revolution is spreading to the production of goods, where robots and 3D printing are displacing labor.
