They brought back the embryo, actually, dozens of. But eventually most societies came to understand that slavery is wrong. JenniferKimballWatson,Be.GeorgeandChristopherTollefsen. The threshold question is whether it is unjust to kill members of a certain class of human beings—those in the embryonic stage of development—to benefit. This is a good explanation of why embryos should be regarded as humans from a purely scientific point of view--no religion, no metaphysics. Butthatlineisnomoreabsoluteinethicsthanscience.Thushisanalogy by the same token, science, which is concerned with what is the case, has nothing to say about what we ought to do, even in the domain of science. Supplement this book with Beckwith's latest: "Defending life.
