Welcome. About Stephen Lubar. This was fine, though interesting primarily as an illustration of just how far material culture scholarship as well as interdisciplinary discussions emphasizing "things" have come in the past couple decades. Signuptoournewsletterorviewasample. Kingery's selection that distinguishes the way material culture scholars situate things at the center of their studies rather than understand them to be products of design was a good, basic way to articulate how an examination of an object needs to pay attention to the policies, practices, and attitudes that circulate around it.
